# ICS Solutions Give You Time for Patients... Not Paperwork

## Claims Processing Centers

ICS has established a network of independently owned and operated professional Claims Processing Centers throughout the United States, including ones right in your area. These claims processing centers will:

- Pick up input documents (superbills, charge slips, etc) from your office
- Enter your claims information in their computer
- Transmit your claims electronically for your practice
- Provide you with complete insurance claims reporting and tracking

## Software and Hardware

From large group practices to solo practitioners, ICS has a software solution that is right for you.

- ICS Component Products** are PC-based products that are simple to use, affordably priced, and targeted to smaller private practices. **AllEdge™** provides practices with electronic patient billing, replacing their current manual ledger card system. **AcClaim from ICS™** allows the practice to file insurance claims either on paper or electronically. With ICS Component Products, you purchase only the modules you need now and add on later as your needs change.
- The UNIX-based **ICS Practice Manager™** product line is designed for physicians who operate in a group practice and require a comprehensive array of automation features. The system emphasizes a total, integrated approach to managing a healthcare practice.

## What Can ICS Do For You?

- Increase Cash Flow** - Speed up reimbursement with electronic claims submission and automated patient billing.
- Increase Efficiency** - Track overdue carrier and patient accounts with delinquency reporting.
- Reduce Costs** - No more forms to buy, envelopes to stuff, and postage with electronic claims submission.
- Improve Communication** with accountants and business partners using comprehensive management reporting.

## Who Is ICS?

- An Atlanta, GA - based company with offices in Fort Smith, AR and Phoenix, AZ.
- A subsidiary of publicly held American Medicare Corporation (OTC:AMMC).
- The manufacturer of UNIX-based and DOS-based practice management and electronic claims submission software.
- The software used by more than 2000 healthcare professionals for their practice management and electronic claims submission needs.

Return the card below or call ICS at **800/444-0201** to find out which ICS solution is right for you.

After all... you've got patients waiting.
