

Find out why over 3000 health care professionals have selected ICS software and services for their electronic claims filing and practice management needs.

## Who is ICS?

- An Atlanta-based company providing practice management and electronic claims submission solutions since 1985.
- A subsidiary of publicly held American Medicare Corporation.
- The manufacturer of software and provider of services used by more than 3000 healthcare professionals for practice management and electronic claims submission needs.

## ICS National Support

- Qualified personnel provide toll-free support available from 8:30 am to 8:00 pm (EST), Monday through Friday to registered users.
- Calls are answered in a average of 3 minutes... much faster than the industry standard of one hour.
- A team of health care and information technology personnel monitoring changes in the filing requirements of government and commercial carrier... constantly updating the software.
- Mandates in health care reform are incorporated into the software, eliminating the need for multiple information management systems.
- Professional health care industry consultants are available to discuss the specific needs of your practice and help you find a solutions that is right for you.

# Finally, Complete Practice Management Software Starting @ \$995

## Easy to Learn, Simple to Use

More than anything, ICS software is easy to learn and simple to use. Documentation takes you through using the software step-by-step. On-line help provides information with the press of a key.

## Have Happier Patients

Patients no longer have to wait while you complete insurance forms and accurate claims processing means error-free patient billing, resulting in less time spent dealing with patients about their statements.

## Improve Cash Flow

Electronic claims submission provides for faster and more accurate claims submission, reducing EOB turnaround by 50%, allowing for quicker payment, secondary filing, and patient billing.

## Reduce Filing Costs

Skip the expense associated with purchasing forms, stuffing envelopes, and paying postage. Online edits eliminate non-productive personnel time resulting from submission errors and re-filing.

## Run Your Office More Efficiently

Maintaining patient information and posting transactions is easy and quick, giving your staff time to concentrate on patients, not paperwork.

## Keep Up with Health Care Reform & Medicare

Eliminate the time spent keeping up with the filing and reimbursement procedures of Medicare and other carriers. We keep track of the changes for you.

To see what a difference automating can make in your practice, call  
**800/444-0201**

After all... you've got patients waiting!

## Improve Business Communications

Complete management reporting allows you to better communicate with other doctors, patients, insurance carriers, and other business partners.

## Modular Design

ICS products allow you to add only those features you need now. As your practice grows, needs change, or budget allows, you can add features. The software is DOS compatible and can be installed across a network.
